Work at Oliver Architecture is exclusively on projects in the historic environment and concentrates on sites of the highest designation and significance – Grade I and II* listed buildings and Scheduled Ancient Monuments.

Holy Trinity Church, Stratford-Upon-Avon

Below are summaries of projects I have been involved with. These works have encompassed conservation, alteration, repairs and extensions. The buildings range from mediaeval to modern, and a large variety of materials, which focus on traditional masonry, lime mortars, stone slating, joinery and plaster. Several of these projects have been shortlisted or are award-winning works.
